

# Your prescription for savings

JSL Inc. is excited to announce that through our relationship with People Corporation, we have negotiated savings for you, and your dependents, on prescription and optical costs through Loblaw Pharmacy and their affiliated pharmacies.

## Your benefits include:

- Reduced mark up costs
- Preferred dispensing fees, *AND*
- Discounts at Loblaw optical and eyewear locations.

You realize the benefits simply by being our valued client.

The preferred Pharmacy Network agreement is in effect at over 600 pharmacy locations operating under the various Loblaw banners across Canada. A full list of store locations can be found at [drugstorepharmacy.ca](http://drugstorepharmacy.ca).

## How to access savings at the pharmacy and optical and eyewear locations

The first time you use this plan, tell the pharmacy or optical location that you have a Preferred Pharmacy Agreement set up under your employer benefit plan.

For optical products, the discount will be calculated when the order is placed. If the discount is for a *family* member, you must be present and present the required ID.

Present your benefit drug card to any of the participating Loblaw's pharmacy locations when getting a prescription filled to ensure the appropriate discounts will be applied.
