# Health Spending Account

## General description of the coverage

The contract holder self-insures this benefit. This means that the contract holder has the sole legal and financial liability for this benefit and funds the claims. Sun Life provides administrative services only (ASO) such as claims adjudication and claims processing.

Your Health Spending Account coverage provides reimbursement to you for services or supplies described in this section under *Eligible expenses*.

An expense is incurred on the date the services are received or the supplies are purchased or rented. Eligible expenses incurred by a dependent are also covered. Coverage applies only to eligible expenses incurred after the employee becomes covered under the Health Spending Account and before the date the Health Spending Account ends.

A dependent is your spouse, your children or any other person whom you may claim as dependents under the Income Tax Act (Canada). For example, this could include members of your extended family, such as your parents, grandparents or grandchildren.

The benefit year is indicated in the Benefit Summary.

### How your Health Spending Account works

Your Health Spending Account works like an expense account. Your employer will allocate credits to your account in the manner described under *Credits* in the Benefit Summary.

Each time you submit a Health Spending Account claim, either for yourself or for a dependent, you will be reimbursed for eligible expenses described in this section under *Eligible expenses*, up to the balance of your Health Spending Account. If a claim exceeds your Health Spending Account balance, you should submit another claim once you have the additional credits required.

### Expense carry-forward

This plan is set up with an **expense carry-forward** feature. This means that credits received for a benefit year may be used to reimburse you for eligible expenses incurred in that benefit year, as well as for eligible expenses incurred in the previous benefit year if you did not have enough credits available.

In other words, if there are not enough credits in your Health Spending Account at the end of a benefit year to reimburse you for all the eligible expenses incurred during that benefit year, eligible expenses can be carried forward and may be reimbursed using credits allocated in the following benefit year. Any credits remaining in your Health Spending Account at the end of a benefit year will be lost.

See the table **Instructions and Time Limits for Sending Us Your Claims** at the beginning of this booklet for information about when and how to make a claim.

There are a number of reasons why the Health Spending Account is tax-effective for you. Eligible expenses are specifically limited to expenses not paid, or not paid in full, under another plan or under another benefit of this plan. If you paid for these expenses on your own, you would have to use expensive "after-tax" dollars. On the other hand, your Health Spending Account is sheltered from federal and provincial (except Québec) income tax. In most circumstances, this means that when you use credits to pay for expenses, you are using less expensive "pre-tax" dollars. The result is extra savings for you.

## Eligible expenses

You can use your Health Spending Account to cover medical, hospital and dental expenses that are eligible under the Income Tax Act (Canada) and are not paid, or not paid in full, under your group plan, your spouse's plan or any government-sponsored plan.

Eligible expenses include but are not limited to the items listed below:

- portion of expenses not covered by a health or dental benefits plan such as deductibles, coinsurances or amounts over plan maximums.
- premiums for health or dental benefits.
- drugs or other preparations when prescribed by a qualified medical practitioner or dentist and dispensed by a pharmacist.
- services performed by a qualified medical or dental practitioner.
- payments to a hospital or another facility such as nursing home, special school, institution or other place for care and training of a mentally or physically impaired individual.
- remuneration of a full-time attendant, or for the cost of full-time care in a nursing home of a mentally or physically impaired individual. Condition must be certified by a qualified medical practitioner.
- emergency services or referred services outside the person's province of residence.
- eyeglasses, contact lenses or laser eye correction surgery when prescribed by a qualified medical practitioner.
- medical devices, supplies or equipment when prescribed by a qualified medical practitioner.
- diagnostic screening, laboratory or radiological procedures when prescribed by a qualified medical practitioner.
- reasonable expenses relating to rehabilitative therapy, including training in lip reading and sign language, incurred to adjust for the patient's hearing or speech loss.
- transportation costs to transfer a patient and one additional person (if necessary) to receive medical services, if conditions for transportation expenses are satisfied and the distance travelled is at least 40 kilometres.
- reasonable expenses for meals and accommodation for the patient and, if required, the accompanying individual, if conditions for transportation expenses are satisfied and the distance travelled is at least 80 kilometres.
- costs of acquisition, care and maintenance (including food and veterinary care) of an animal specially trained to assist a patient who is blind or profoundly deaf or has a severe and prolonged impairment that markedly restricts the use of arms or legs.
- modifications to the principal home of the person who lacks normal physical development or who has severe and prolonged mobility impairment, to enable the person to gain access to a dwelling or to be functional within it.
- reasonable expenses to locate a bone marrow or organ transplant donor, and reasonable travelling, board and lodging expenses of the donor and the patient in respect of the transplant.

*Qualified* means a person who is a member of the appropriate governing body established by the provincial government for their profession. In the absence of a governing body, the person must be an active member of an association approved by us.

## Other coverage

If you or your eligible dependents have coverage under another plan, you should submit your claims to the other plan first. Once benefits have been determined under the other plan, you can submit any unpaid portion of the claim for payment from your Health Spending Account.

## When coverage ends

See the Benefit Summary at the beginning of this booklet to see when your coverage ends.

## **Surviving dependent coverage**

The Health Spending Account is set up under the employee's name, and there is no continuation of coverage for dependents after the employee's death. Only eligible expenses incurred before the employee's death can be reimbursed under the employee's Health Spending Account.
